

# TOTAL TRAINING™ FOR ADOBE® ILLUSTRATOR® CS3

## ADVANCED

### QUICK REFERENCE GUIDE

#### Part 1 –

##### 1 ADVANCED SELECTION TECHNIQUES 19:35

- 1 Selecting with the Lasso Tool
- 2 Selecting with the Magic Wand Tool
- 3 Selecting Based on Attributes
- 4 Saving & Retrieving Selections

##### 2 ADVANCED PATH EDITING 46:50

- 1 Working with Compound Paths
- 2 Editing Compound Paths
- 3 Fixing Problems with Compound Paths
- 4 Expanding on Compound Paths
- 5 Converting Paths to Filled Objects
- 6 Working with Filled Objects
- 7 Using the Offset Path Command
- 8 Dividing Objects

##### 3 BLENDS & CLIPPING MASKS 42:05

- 1 Creating Blends between Two Shapes
- 2 Altering Customized Gradients
- 3 Using the Pen Tool with Blends
- 4 Creating 3D Effects Using Blends
- 5 Converting Blends to Vector Objects
- 6 Working with Clipping Masks
- 7 Applying Clipping Masks & Blends

##### 4 GRADIENTS & GRADIENT MESHES 48:39

- 1 Applying a Gradient
- 2 Adjusting Gradients
- 3 Using the Gradient Tool
- 4 Using Gradients on Text
- 5 Using Gradients on Strokes
- 6 Creating 3D Effects with Gradients
- 7 Using a Gradient Mesh
- 8 Expanding on the Gradient Mesh
- 9 Modifying Mesh Points
- 10 Blending Objects into a Mesh

##### 5 ARTISTIC EFFECTS & THE BRUSH TOOL 39:23

- 1 Introducing the Brush Tool
- 2 Using the Brush Tool to Trace a Sketch
- 3 Apply Strokes to Vectors & Calligraphic Brush Options
- 4 Experimenting with Artistic Brushes
- 5 Stroke Options & Art Brush Options
- 6 Making a Custom Art Brush
- 7 Editing the Color of an Art Brush
- 8 Working with Scatter Brushes
- 9 Working with Pattern Brushes

##### 6 WORKING WITH TRANSPARENCY 45:45

- 1 Applying Transparency & Blending Modes to Objects
- 2 Isolating the Stroke & Fill
- 3 Manipulating the Stroke & Fill
- 4 Working with Knockout Groups
- 5 Filling an Opacity Mask with an Image
- 6 Filling an Opacity Mask with a Gradient
- 7 Using Text in an Opacity Mask
- 8 Creative Tips for Using Opacity Masks
- 9 Printing Objects with Transparency

##### 7 USING DYNAMIC TYPE TREATMENTS 55:28

- 1 Using Dynamic Effects
- 2 Manipulating Live Effects
- 3 Applying Effects to Text
- 4 Creating Geometric Shapes
- 5 Applying Graphic Styles
- 6 Applying Effects to an Entire Layer
- 7 Applying Warp Effects
- 8 Modifying Warp Effects
- 9 Applying Graphic Styles to Text
- 10 Creating Graphic Styles
- 11 Creating Comic Book Bubbles
- 12 Final Comments & Credits

#### Part 2 –

##### 1 WORKING WITH LIVE PAINT 30:14

- 1 Creating a Live Paint Group
- 2 Adding Additional Fills & Strokes
- 3 Adding New Paths to a Live Paint Group
- 4 Select an Entire Object or Isolate a Selected Group
- 5 Using the Live Paint Selection Tool
- 6 Applying Effects to Live Paint Objects
- 7 Integrating Live Trace & Detecting Gaps
- 8 Using Live Paint to Color an Illustration
- 9 Sample Color & Expand a Live Paint Group

##### 2 USING 3D EFFECTS 55:24

- 1 Introducing 3D Effects
- 2 Creating an Embossed Effect Using Gradients
- 3 Explaining the 3D Extrude & Bevel Options
- 4 Using the 3D Extrude & Bevel Effect
- 5 Setting 3D Lighting Options
- 6 Creating Complex 3D Shapes
- 7 Adding 3D Effects to Text
- 8 Mapping Artwork to a 3D Object
- 9 Applying the 3D Revolve Effect
- 10 Applying the 3D Rotate Effect

##### 3 CREATING GRAPHS 19:15

- 1 Creating a Basic Graph
- 2 Adding Basic Formatting
- 3 Formatting & Adding New Text to a Graph
- 4 Importing Data into a Graph
- 5 Create Graph Designs for a Stacked Column Graph
- 6 Mapping the Graphics to Columns

##### 4 WORKING WITH TEMPLATES 38:07

- 1 Template Project Overview
- 2 Setting Text Wrap
- 3 Organizing Layers
- 4 Creating & Using Paragraph Styles
- 5 Saving as a Template
- 6 Creating New Files from Templates
- 7 Editing Illustrator Templates
- 8 Exploring Illustrator's Standard Templates

##### 5 PRINTING & EXPORTING 44:46

- 1 Preparing Illustrator Files for Print
- 2 Setting Page Tiling & Crop Area
- 3 Looking at the Printing Options
- 4 Exploring Printing Categories
- 5 Looking at the Saving Options
- 6 Exporting Artwork
- 7 Using a Smart Art Object

##### 6 CREATING FLASH(R) ANIMATIONS 58:19

- 1 Exporting an Illustrator File as a SWF File
- 2 Exporting Illustrator Layers as SWF Frames
- 3 Exporting Illustrator Layers as SWF Symbols
- 4 Import SWF Files & Convert Graphics to Symbols
- 5 Creating & Editing Symbols
- 6 Animating Symbols
- 7 Animating Blends
- 8 Animating a 3D Object
- 9 Importing Content from Illustrator into Flash
- 10 Importing Text into Flash
- 11 Final Comments & Credits
